WHAT3WORDS	///decorate.classic.tumblers
Path Type	Bridleway
Comments / Action Required	Upon replacing a washed out bridleway sign (was more washed out than photo shows which seems to have picked up on the colour, was almost white when looking at it) on the waymark, it became apparent that the entire waymark is badly rotten.
Action Taken	I have replaced the Bridleway sign slightly lower down so there is still one on the post but suggest the waymark needs replacing

After sign replaced – added lower down

Path number	130/4
WHAT3WORDS	///survivor.clinking.enhancement
Path Type	Footpath
Comments / Action Required	On a previous walk back in December there was a walkers only sign screwed to a tree which was then taken out but I put this Walkers Only sign on the waymark to discourage someone screwing another one to the tree.

WHAT3WORDS	///beard.trumped.swerving Also ///footballers.encourage.tidying Also ///duck.chatters.slightly
Path Type	Bridleway
Comments / Action Required	Issue 5 from December report but I ran out of bridle signs with me at the time. Washed out signs need replacing – signs all located in this area hence reporting together
Action Taken	Upon replacing the signs at ///beard.trumped.swerving waymark it became obviously that the waymark was rotted at the bottom so will need to be replaced at some point. After 1 sign replaced shown below I stopped replacing the bleached signs on this post as it was too unsteady
